State delegates to the State convention to be held at Charleston, August 22, and the Congressional convention, which meets at Clarksburg, September 5. The only contest was over the Congressional delegation, there being no fight upon State delegates except where the warmth e delegates to the State convention meets at Clarksburg, September 5. The Volkenrath was named as executor.

The McCulloch County Land and Cattle Company, of Texas, in which a number of Wheeling people are interested, has declared a cash divided of figurer cent.

Universal delegates except where the warmth of the struggle for Congressional delegates made some traces of personal feeling. On the whole, the election though

earnestly and warmly contested, was entirely good humored and harmonious, and there never was a time when the disposition to gracefully accept the will of the majority was more universal among those interested.

against the Captain.

A GLANCE AT THE VOTE.

Of course, as always, the vote varied with the popularity of the different men on the tickets. It is as fair for the one side as the other to take the highest vote and make a comparison. If anything, this is fairer for the Captain than the opposition, for the reason already given—that his vote was centred and the others were not.

that his vote was centred and the others were not,
In Washington district the highest Dovener vote was 93, and the highest opposition 32. In Madison it was 272 for Dovener and 110 against. In Clay the highestvotes, except for Prof. Jones, who was on both tickets, were 82 for Dovener and 113 against. In Union it was: Dovener and 113 against. In Union it leads to the second of the second 113 against. In Ritchie, 103 for and 178 against. Taking this second if you was 100 for and 184 against. Taking this vote, it gives Dovener a total of 800 to 851 against him, in the city. He carried Liberty and lost Triadelphia districts, and Richland has not been reported.

This shows conclusively that the sentiment of the city is against Captain Dovener.

The vote was large, and business mer who have in the past seldom or never at-tended a primary were noticed at the polls, showing the wide-spread interest

Capt. Dovener said to an INTRILIGENCER reporter last night that of the forty-four votes on the basis of 4,400 and odd votes cast for Goff in this county in '86, he would have 35; but of course this has no bearing on the standing of the delegation, were it as he claims. The county representation will vote its 44 votes not as district, but as county delegates. Capt. Dovener claims 29 delegates in the county. Friends and supporters of his figure that he has 22, and the opposi-tion conceles that he has about 18, with
